

U.S. SECRETARY'S SON AGED TWENTY, ELOPES

Ship From School and Weds Department Store Girl—Juvenile Pair United at Burlington, Minn. But Don't Know Minister's Name.

Providence, R.I., Mar. 11.—Wearing a broad band of gold and a diamond ring engraved with his name, a young man who had been a student at the New England High School here, eloped with a department store girl from this city, last night claimed Philander G. Knox, Jr., 20 years old, son of the U.S. Secretary of state, as his husband.

"We were married in the parsonage at the First Congregational Church," she confessed to a reporter after having remained silent for four hours.

The first revelation yesterday of the romance proved rather disconcerting to young people who had come to Providence to obtain a marriage license was received here before his return after a three day vacation in New York City.

Principals French of the Morris High school, where he was, he confided to his room at the hotel, had been present at the wedding, but refused several hours later he was dismissed from the school.

He left without taking any of his belongings. At noon he was seen at luncheon at a hotel here. After that he disappeared.

With Jas. E. Milne, a young friend of Knox, the young woman who says she is Mrs. Philander G. Knox, went to Providence in company with the son of the secretary of state, Milne and his wife, Mrs. Milne, 147 Benefit street, where with her mother, Miss Bollock had a small suite of rooms.

There she remained undiscovered until the middle of the afternoon when Milne and his wife indicated they had been married to Knox. She said she did not know the name of the clergyman who officiated at the ceremony, that the marriage license, when she said the ceremony took place, was on. She refused to reveal any of the details of her romance or of the wedding party. Young Knox did not appear at the house in the vicinity of Tarrytown.

GAYNOR ISSUES WARNING

To Police Magistrates.—"Tomfoolery Has Been Too Frequent."

New York, Mar. 10.—Mayor Gaynor laid down two broad rules for police magistrates in criminal cases. Yesterday he told the woman of the law arrested for soliciting should not be discharged merely because the police man was her lover.

Second: That it does not necessarily require a whiskey expert's testimony to sustain a minor charge of Sunday selling.

These rules were explained by J. J. Morrissey, Mar. 10, attorney for the King's Bar Association, the King's mayor has named to succeed Mr. F. J. Farley as police magistrate recently convicted of petty graft. To Mr. Harris, the mayor wrote in part as follows:

"Magistrates are sworn in, never to allow time to be moved by political influence, or any other consideration, and are related with your powers, which are very great and apt to turn one's head."

"Do not convict anyone unheard of to you; on the other hand if any person is presented to you for trial when they should be held. If any of fees sees a woman in the street crying for help, do not be afraid to see a magistrate discharge her off the ground that as the policeman did not hear what she said to take note thereof, she said to take note of her good honest self."

Taking up the Sunday question, the mayor said that the serving of a drink as whiskey is submission by the defendant that it was whiskey and that magistrates should be lenient rather than dismiss cases for lack of evidence.

"I would multiply the confounding he writes, "but these suffice for illustration."

EXAGGERATED ANGRILARITIES.

Professor Gray Says Canadians May Kill Indians of Justice.

London, Mar. 10.—At a meeting yesterday of the Royal Colonial Institute Dr. H. B. Gray said that from a family point of view the Indian aborigines in many different callings, had been inclined to think that they had a better right to engage in the various occupations of inland-born Englishmen. Perhaps they were somewhat inclined to the notion and reflected of manhood which they believed to be the property of those who possess certain traits of tradition and custom behind them.

Professor Gray said English schools were coming for the governing class, and sometimes friction when a public school boy was assimilated, there was nothing in the colonies.

G.F.P. Is No Hurry for Settlement. London, Mar. 10.—Charles M. H. Macmillan, president of the Grand Trunk Railway, on being interviewed here, said that the G.T.R. would settle seriously only Atlantic seaboard ports. It has now should be settled to the Yellowhead Pass by the end of the year. Hay estimates that there will be an increase of 20 per cent in immigration to Canada this year.

Automatic Disqualification.

Toronto, Mar. 10.—One of the principal legal committees of the Ontario Medical Act, on which Dr. Preston was elected chairman yesterday, it was agreed to disqualify him from making the conviction of medical men for a criminal offence mean the automatic removal of his name from the register. A new medical district was created to include the regions of Thunder Bay and Rainy River.

CONDITIONS SERIOUS IN STRIKE Armed Strikebreakers at Corinth, N.Y., Arrested.

Corinth, N.Y., Mar. 10.—Strikes brought here by the International Paper Company, in the express car of a regular passenger train, were arrested just right by the police, who charged with concealed weapons, and locked up. There is a general belief that any attempt to smuggle in unionists on a large scale will be bitterly resented and is sure to provoke trouble.

Two dynamite cartridges were exploded under a railroad bridge which strikebreakers had built across the river. The damage was slight, owing to scant knowledge of how to handle such explosives. They were held under guard in millia. Company L, Second Regiment National Guards, is stationing at Corinth to prevent strikes or sympathizers resist an attempt to smuggle in unionists on a large scale.

LINKS OF EMPIRE.

There is no greater bond of union between abroad friends than a frequent exchange of letters; thereby keeping alive sympathy and mutual interests; and there are few people in this world to whom a letter is not welcome. Children especially delight in receiving letters, and have the added joy and feeling of adventure in writing to friends in distant lands, which they hope some day to visit.

It was through an understanding of very many interests that the League of the Empire originated in 1891 a scheme for bringing children in different parts of the empire into touch with each other.

They were able to utilize their immense knowledge of education, of every grade, both in Great Britain and in the colonies, in the furtherance of the scheme, and the result of the expansion which has come from quite small beginnings may be gauged by the fact that the 10,000 children are now members of the Comrades' Correspondence section of the League, and the number increases with each other.

The number increases at the rate of nearly 1,000 a month, and the scheme continues to grow.

The age range varies from 9 to 19, but the most active correspondents are those between 12 and 17, who have already begun to form a social circle of their own circle begin to interest them, and to wonder what it is all about.

Each child signs a form giving his age, sex, parentage and address, and the name of the school he attends, in what country it wishes to have a comrade.

These forms are sent to the office, quickly compared with those already received, and the child is put in touch with another child of similar age, position in life and interests, in the country chosen.

"It is a diagram, and the correspondence begins, and the friends quickly become steady, friendship and in many cases awaken interest in all corners of our great Empire. There is occasionally a little difficulty in securing the desired (not unconscionable) correspondence (not being asked for a comrade in some very out of the way corner of the world);

but if impossible, another equally attractive spot is chosen.

The correspondence is encouraged by the teacher and passes through their hands, and as far as possible the scheme is of schoolchildren, as stated in 1902, which has won the approval of all over the colonies. The British Isles is linked with one of the main cities in Canada, Australia, South Africa, and India, and an added interest is imparted when the names of the places where the children live are given, such as Swindon in Tasmania. The children in these linked schools take part in annual history competitions, natural botanical specimens, and every study which they exchange with their friendly rivals. They compete in Empire day essay contests, also in Empire day games, and exchange presents with each other for use on the 24th of May. The Blackley Empire Day Committee in Australia has a particularly interesting collection of colonial objects, and the Empire Day Committee of Carlisle will show how much the local apparel its opportunities.

On the 24th of May, a silver dollar flower show was held in the schoolroom and as a side show was held a great competition for the best in visiting day when several hundred parents and friends were at the Wimborne hotel, and the Wimborne raised extraordinary interest, and I have received a number of letters from the scheme appeared in the newspaper.

But subjects taught in the school which the children consider some very definite ideas of their own. For example, a New Zealand boy of nine wants to contribute a series of notes on girls of interest in diamonds, Zebra and girls of 13 ask for a comrade in Germany, and a boy in India, in order to learn about army work at the Khyber Pass. A New Zealander wants to find a boy in England or Canada, who is interested in Arctic exploration; and another of 13 asks for a boy to go to the Arctic.

Give me a description of the city you live in and of the ship that carries you to and from the port you want to correspond with, and I want to correspond with a girl in Edinburgh, who is interested in music.

But these few examples will serve to show how keenly, once they have once had a comrade, the idea of comradeship, and what intense encouragement can be given to the children, and the impression that they are all fellow citizens of one great Empire, working for a common cause.

The work of the school-linking and the comrade scheme of the League has attained such large proportions that a special committee has been appointed to look after the members of the committee are: Vice-Admiral Johnstone (chairman), Lady Philip, Philip C. Colquhoun, Mrs. Astor Key, Captain Colquhoun, Mr. Marshall, Mr. Henry V. Ellis, Mr. Lyall, who are in the interest of all teachers and others throughout the Empire in the furtherance of their

work. They desire it to be so widely known as possible, and will gladly give information to all who send inquiries to their home secretary, Mrs. Oct. Mar. Hall, Leader of the Comptons, Court House, Westminster, London, S.W.

HAD ROUGH VOYAGE.

Rev. V. V. Dawson, M.A., LL.D., of Edinburgh, came back to Canada Saturday evening from the old country. The reverend gentleman will speak at the opening of the new laws and will in all probability enter the educational work of the Baptist Church in this province. His wife and children are in Ireland.

When asked of his voyage Mr. Dawson said that the captain of the Empress of Britain had been a good man, but that he had been the roughest voyage he had ever experienced, and Mr. Dawson said that he had been seasick.

"If we had had bad accommodations on this vessel, it fit for human beings, at least in the height of the storm would have been saved," declared Rev. V. V. Dawson.

"There would be no investigation if the C.P.R. or any other corporation that is doing a transportation business and that handles a large amount of cattle and horses in Ireland, should be called to account for the lives being sacrificed."

"The vessel had 1,200 passengers, 180 first-class, 473 second-class and the remainder third-class. The third-class passengers were packed so closely together that they could not move, and the balance had no place to take recreation."

"It is a disgrace, and a sad affair, and it is a real calamity that could exist."

The passengers protested, but nothing could be done and it was a poor consolation to the crew to be told that the ship had been a great success.

"The C.P.R. has never made a statement that two lives were lost on board, but it is high time that the government have an investigation of this state of affairs."

News of the terrible winter in Ireland was growing among the Protestants in Ireland, and the prospect of a severe winter was causing much alarm.

"The people of Ireland are not at all fit for the severe winter to come, and this accounts for several thousand who returned were given no care by the government and T. W. Russell himself allowed the people to starve, and he had very little power. Ireland was breaking away from the control of the T.V.P. party. At the same time the people of Ireland were not doing all not fit for the severe winter to come, and this accounts for several thousand who returned were given no care by the government and T. W. Russell himself allowed the people to starve, and he had very little power. Ireland was breaking away from the control of the T.V.P. party. At the same time the people of Ireland were not doing all they could do not fit for the severe winter to come, and this accounts for several thousand who returned were given no care by the government and T. NEW FIRST SEA LORD HAS HAD MUCH SERVICE

Admiral Wilson, Who Now Is Supreme in the Black Sea—Brought as "Muddy" in the Black Sea—He Is a Strict Disciplinarian.

London, Mar. 10.—Admiral of the Fleet Sir Arthur Knyvet Wilson, G.C.B., G.C.V.O., V.C., the new first sea lord, has spent nearly half a century in the service of his country. Considering the meagre opportunities for naval careers in the navy, his war services are extensive.

At a "giddy" age he joined the Black Sea during the Russo-Jap. war in 1894. He was present at the capture of旅順 (Port Arthur) and the battle of **Alexandria**, where Eddie commanded the Invincible (the Dreadnaught). After the day of battle he was torpedoed by a torpedo boat ship, *Hecate*, and kept the fighting line supplied with ammunition.

At the battle of El Teb, in 1896, Sir Arthur was with the C. with Sir George White. He was present at the capture of **El Teb** and the battle of **Abu Klea**.

London, Mar. 10.—Sir Arthur has one of the most courageous records ever witnessed. The story is well known how he, with a party of British sailors, square and scaling half a dozen of the enemy making a dash for it, cut his way through the **Wadi** and himself into the breach. After he had cut down one or two with his sword, his weapon broke off at the hilt. But he went on, and won the same and bowed the savages over with his fist until a detachment of the **Yanqui** (Liberians) came up to put an end to the unequal combat.

Torpedo-Specialist.

Since the beginning of his career he has been a peaceful one; but in the last quarter of a century he had had such a varied experience that a most admirable record.

B. C. LEGISLATURE PROROGUED

Temperature People Up Against New Liquor Act.

Victoria, B. C., Mar. 10.—The first session of the twelfth parliament of British Columbia was adjourned by Governor-General Patterson yesterday afternoon. The morning session took the form of a battle, several bills being introduced and voted down. The opposition, led by the **Liberal** party, got a majority in the house, and the government would perish amid the scars of all parties.

His specialty has always been the torpedo. In 1857 he became assistant director of torpedoes at the admiralty, and in 1855 commanding officer of the torpedo squadron in the naval museums. Two years later he was made controller of the navy, especially known by much knowledge of dockyard administration, which lately he has left to become a member of the board of visitors to all the national yards.

His first real field command came in 1860 when he was given the old Channel squadron, transferring to the old Home. When he was 22 he became the Channel fleet, sir Arthur Wilson retained the command, handing down the staff, **El Teb**, to give place to Lord Charles Beresford.

Such is the brief sketch of the life of the man who is today a statesman, a man not only commanding the defence of the British empire, and for the expenditure of some thirty-five or forty millions of the nation's money yearly.

Strikes Disrupt.

Disruption of the schedules of subordinate to superior right through the services. Sir Arthur Wilson will have at all costs. With him personalities were not necessary, but the man in the navy is part of a vast machine. If any part gets out of the system it will be the whole.

Admiral Wilson carries this view of the world. He is a man of few words, and all men have feelings, and most of them have wives.

With the exception of Beresford had the Channel fleet no happier fleet or had been, solely because Sir Arthur Wilson, who is a man who is part of the machine, they received infinitely more delicate handling than the more brutal and detect crowded masses of the world. His efficiency is to get out of them.

On the material side, the advent of Sir Arthur means promises nothing but good.

In the person of the fleet, Sir Arthur Wilson will have at least a good effect. He will put a final stop to faction. Those who profess to be actual members of the fleet, who would, however, do well to change their quite unwarrantable attitude if thought of as Wilson as a direct follower of Fisher. There is, in the first place, the nation, the navy will accept him as Wilson, and not as anybody else.

HANGED AT PRINCE ALBERT

John Meek Pays Penalty for Atrocities

Prince Albert, Sask., Mar. 10.—John Meek walked to the scaffold without a quiver or the least sign of fear, without a murmur was hanged at 10 o'clock this morning. The drop was made at 10 o'clock and Dr. Holt Kail, physician pronounced Meek dead. The condemned, towards death, being caused by strangled hanging.

Hannigan Holmes, of Redding, officially told the press that Meek was to be hung to the last minute to satisfy the leading cities of Canada is involved in the reception by trade unionists of the miners from Europe. From the street car strike there.

Over 1,000 thousand union men here are asked to contribute to the strike fund at Philadelphia. Further they are to be if through the American Federation of Labor every union man in the city should be asked to strike in sympathy.

If carried out this would involve the United States and Canada in a general strike.

Highwaymen GET \$4,000.

Fall Men With Clubs and Escape Across the Ohio.

Pittsburg, March 10.—Edward McLean, paymaster, and Charles McLean, son of the late James McLean, of the Duxor Coal Company of Pittsburg, were attacked by a highwayman on a cold night after carrying a \$4,000 payroll in a buggy to their company's mines at West Ohio. One of the McLeans' black mail men were still unconscious in Steubenville, Ohio, while the murderer was captured in the place where the hold-up occurred.

McLean crawled about a mile on the ice to a house where he was found with the money he was thought to be riding in the hills of West Virginia, according to the police.

The highwayman was captured by the police blade broken and reporting a voyage of exceedingly tempestuous weather. This was the second hold-up in half the time she took.

The people blade broken in mid-Atlantic, and the highwayman maddening racing, the blade snapped off. Thereafter the weather moderated somewhat but the Manchester Shakers had to come along it reduced speed.

CRITICISM OF NAVAL ESTIMATES.

Statement of \$800,000,000 is Appalling, Wilson and Undersecretary Say.

London, Mar. 10.—The naval estimates presented in parliament yesterday, and almost exactly foreshadowed in the telegram cable of January 19, are another factor making for the disintegration of the ministry.

Sir George White, M.P., free church man, is appalled and exasperated by the appalling, wicked, unnecessary and useless. The Daily News says both Germans and Americans are shocked by the statement of the naval estimates, and the imperial press conference, but railings, bankrupts, and calls for the resignation of the ministry, to demand that the wild ravings cease.

The Daily Chronicle predicts that the next war will be even larger as the inevitable price of British naval supremacy. The Morning Post says that the cost of the naval estimates will have, by corrupt methods and force, wrecked the Federal Authority—Tells of Wanton Plunder of This Great Corporation.

Seattle, Wash., Mar. 10.—"If we have been in the past the Godsend that the country bottled up so that the individual citizen is left without even a coat," says the Daily Journal.

"By a system of dummy entry and the security through methods, most popular, of the reports of the government, the country's minerals, timber lands, and our resources before their report taken to the Navy Department in Washington the promoters will have been enabled to get possession of most of the country's wealth, including especially the copper, gold and coal ground."

Jack Dalton, Head Pathfinder, Boys Who Will Soon Have Wasted Federal Authority—Tells of Wanton Plunder of This Great Corporation.

After he had cut down one or two with his sword, his weapon broke off at the hilt. But he went on, and won the same and bowed the savages over with his fist until a detachment of the **Yanqui** (Liberians) came up to put an end to the unequal combat.

London, Mar. 10.—"The British army has one of the most courageous records ever witnessed. The story is well known how he, with a party of British sailors, square and scaling half a dozen of the enemy making a dash for it, cut his way through the **Wadi** and himself into the breach. After he had cut down one or two with his sword, his weapon broke off at the hilt. But he went on, and won the same and bowed the savages over with his fist until a detachment of the **Yanqui** (Liberians) came up to put an end to the unequal combat.

STRATHCONA NEWS

LOCALS.

Rev. J. Miller expects shortly to give a lecture in Knox Presbyterian Church on one of Shakespeare's plays. The subject and time will be announced.

The two houses purchased by Strathcona citizens from A. L. Beck, Prince River, are now open, particularly in the city park, where they seem to be in more in native elements.

The worst ice of the winter ended the center of the Strathcona Curling Club, but the members are still playing, however, but were stopped before the twelve ends were completed.

COAST PROVINCE PLANS TO SPEND \$7,738,257.00

A Large Increase in the Estimated Expenditure of British Columbia for the Coming Year—Estimates Brought Down in Legislature.

Vancouver, March 10.—The estimates of the expenditure of the Province of British Columbia for the fiscal year ending March 31st, 1911, were brought down by the Minister of Finance, Hon. W. J. Bowring, yesterday, to \$7,738,257.00, or \$7,738,257.11, together with a statutory obligation on account of the guarantee of three sets of \$7,738,257.00, the total estimated to end March 31st, 1911, at a sum of \$7,738,257.11. The aggregate amount asked for for the coming year did not decrease by \$1,633,700, but there was an increase in the estimated expenditure of the Province for the coming fiscal year of over \$1,000,000 in dollars more than the current year.

The supplementary estimates are slightly larger than those for the year ended for the current fiscal year there is needed \$1,281,302.46, and for some odd reason of account for the next year \$1,000,000. The total required for the year is \$7,737,163.11. The sum total of the estimates to be voted this session is thus \$8,438,700. The increase in the total of the total vote of \$6,839,557.12 last year, is certainly making the money by as much as \$1,633,700. The increase in the amount credited with having been soon after his accession to the stewardship of the purse.

The estimate of receipts gives promise of a deficit on the year's operations. To meet the expenditure of \$7,738,257 there is a balance of \$7,738,257.00, and the year then described, Hon. Minister of Finance was able to show an excess of \$329,000 in his estimate of receipts over his estimate of expenditures.

The item of \$400,000 for civil Government services, which was voted by the Lieutenant-Governor's office, \$1,160 Premier's office, 4,940

The remarkable unabating increase
of this weekly bargain event is the
logical effect of a definite cause—it is
not a trick of the specious merchandis-
ing that is still in vogue in some stores.

Each item is scrutinized and tested be-
fore being advertised—even if it is an-
nounced here in only two or three words
of small type, we have made sure it is a
genuine value-giving surprise before print-
ing it. That's the method that has made
our Saturday Sale the most important and
widely patronized selling event of the
week.

**EVERY ITEM, DOWN TO THE

County Month, is one of the finest
specimens of Anglican lace and
embroidery in existence. It was
made in 1661 by Hugh de Lacy, first Lord Palatine of
Meath, and given to the Crown
by his noble wife, whose descendants
own it to this day.

Mr. Plunkett, the owner of the lace,
has given us several fine
specimens of lace for the time being,
having accepted the position of sec-
retary of the Lace Association of
Canada. He is the author of a
most interesting book on the
subject, "The History of Lace in
Ireland," which will be published
in the near future.

Our line of Elastic and
Silk Belts is now complete.
